# A Word to Our Patrons and the Trade

For those unacquainted with us we would say that over 63 years ago the foundation of our business house was laid, and from a very humble beginning, as a result of energy, industry and honesty our business has grown to be of vast proportions, and at this time we are second to no house in point of amount of stock grown and sent out east of the Mississippi. It is very stimulating and encouraging to see old customers sticking to us and also many new names added to the book annually, and if **STRICT PERSONAL ATTENTION** to the growing and handling of the stock will insure proper treatment of orders, we are confident that you may rest easy after you decide to trade here. We are fully equipped with every method and appliances to execute orders in an "up-to-date" manner.

We are large growers of a general line of Nursery Stock, especially Apples, Peaches, Std. Pears, Plums, Small Fruits, Ornamentals, etc., etc., besides growers in a greater or less degree of nearly every hardy tree or plant to be found in a first-class nursery.

In the following list we have tried to make prices as low as first-class nursery stock can be sold. We solicit your patronage.
